

CentreCOM® GS900MX/MPX Series

LAYER 2 MANAGED GIGABIT ETHERNET STACKABLE SWITCHES

Allied Telesis CentreCOM GS900MX/MPX Series switches are cost-effective, fully managed, and stackable. The switches in this series can serve as an AMF node when an AMF Master switch is available in the network, which helps to reduce network running costs by automating and simplifying many day-to-day tasks.

With a choice of 24- and 48-port 10/100/1000T versions with 10G up link, Power over Ethernet (PoE), plus the ability to stack up to four units, the CentreCOM GS900MX/GS900MPX Series switches are ideal for demanding applications at the edge of the network.
