The CentreCOM Rack Mount Assembly Kits are the ideal tool for users to install CentreCOM Micro Repeaters and hubs into a standard 19-inch rack.

The entire series of CentreCOM Rack Mount Assembly Kits are convenient and easy to install. One simply provides the screws to attach the bracketed unit to the 19-inch rack.

The mounting process is made quick and simple with the CentreCOM Rack Mount Assembly Kits. Holes are provided in the chassis of CentreCOM products to allow installation in just a few steps. The whole process requires a minimum amount of time and effort.

- Rack mount kits available for most CentreCOM Micro Repeaters
- Quick and easy installation procedure
